

Welcome to 2008 the year of new beginnings. Like everything on the planet there is a negative and positive. 2007 was the year of war or peace. Astrologically Saturn has moved into Virgo. Jupiter into Capricorn. As an individual you have ten principle planets plus other aspects. It could be a great year for your Sun Sign, however, a planet may be visiting part of your chart creating change or challenges.

Mercury, planet of communication will be retrograde at different times during the year. This affects everyone. Delays and frustrations in communication is its gift. Please visit my website www.teymarainc.com click on Teymara's Blog for more information.

ARIES

YOUR YEAR AHEAD

Don't get frustrated at the beginning of this year. Things will only get up and running toward the end of January. 2008 will see a lot of your energy spent on relationships. These will figure in every area of your life. Say yes to social invitations. This is an important time to be 'out there.'

TAURUS

YOUR YEAR AHEAD

Your career or standing in the world will take a lot of your energy this year. A great time to check through everything will be end January to mid February plus end September to mid October. Make this year a time of preparing and putting into place necessary changes. You'll be affected by a wonderful transit in 2009.

GEMINI

YOUR YEAR AHEAD

Most of your focus will be on career. You'll have financial situations to deal with. Mercury (your ruler) will be retrograde at times through the year. (Go to my website www.teymarainc.com & click on Teymara's blog for more details). It's important to delay any important decisions and signing of documents during these times. Going to the depths of yourself will be important. So, 2008 will be a time for some personal growth.

CANCER

YOUR YEAR AHEAD

2008 will be a time to work on your self esteem. The stronger it is the more you'll have confidence to branch out. Relationships will play an important role. I feel they will be more romantic than career based. Expect changes around career in March/April. As your self esteem improves so will your communication in having your needs met.

LEO

YOUR YEAR AHEAD

Well, what a past couple of years it's been. So, now that it's all behind you it's important that you have learnt your lessons. In so doing, your 2008 will be awesome. Doors will open that were previously shut. Move on new ideas as everything will be going for you. Balance work and time out. I feel this will be your greatest challenge in 2008. Remember to exercise.

VIRGO

YOUR YEAR AHEAD

Now, planet Saturn will be with you all year. So, get focused on your goals. What do you want? Where do you want to go? When you have the answers go work out a plan. By taking such action Saturn will support you. Ignore this advice and you'll experience the difficulties and frustrations of Saturn.

LIBRA

YOUR YEAR AHEAD

This is a 'me first' year energy for you. Instead of putting your time and energy into others as you normally do it's you who needs your attention. Expect a very confronting year. Like it or not, many things you've never wanted to acknowledged about yourself will surface. Time for the real you in the world. Wow, take up the challenge and it will be full steam ahead!

SCORPIO

YOUR YEAR AHEAD

It's time for the old life to die. However, you'll have to wait until February for the new to begin. It'll be a slow start to the year. Reasses everything in January experienced in 2007. By so doing you'll be in a better position to make the right decisions about everything throughout the year.

SAGITTARIUS

YOUR YEAR AHEAD

Wow, get ready for it. 2008 is going to be a positive expansive time. Things that were churning last year will require an outlet. Movement is all around. You're the individual going into battle. This battle is about achieving your goals. Please take care of your health. Burn yourself out and nothing will be achieved.

CAPRICORN

YOUR YEAR AHEAD

Lucky Capricorn has Jupiter visiting from December '07 until January '09. What exactly does that mean? Putting it simply. "The world's your oyster." Whatever you want or whoever you wish to be, now's action time. Don't let anyone or anything hold you back. This gift comes around every twelve years, so, don't waste it! To say 2008 is your year is an understatement.

AQUARIUS

YOUR YEAR AHEAD

Watch out it's Karma time. Do you run for cover? Only if you haven't lived in integrity. If you've used people for your own means? Well, you'll live to experience the consequences. On the other hand it could be totally brilliant. Everything you have ever wanted could be laid at your feet. It all depends on your past actions.

PISCES

YOUR YEAR AHEAD

Time to be responsible. You'll face the energy of having to make mature decisions. No more doing anything on a whim. Learning how far you can go with certain individuals will arise. This will frustrate you beyond distraction. Don't expect things to always go your way this year. However, your challenge will be how strong you are. Learning to stand your ground is a powerful plus!
